

Ogre::ParamCommand

```
classDiagram
    class ParamCommand["Ogre::ParamCommand"]
    class RotationAffector["Ogre::RotationAffector"]
    class CmdRotationSpeedRangeStart["Ogre::RotationAffector::CmdRotationSpeedRangeStart"]
    ParamCommand <|-- RotationAffector
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'Ogre::ParamCommand'. Below it is a box labeled 'Ogre::RotationAffector' with the sub-label '::CmdRotationSpeedRangeStart' below it. A blue arrow points from the 'Ogre::RotationAffector' box up to the 'Ogre::ParamCommand' box, indicating that 'Ogre::RotationAffector' inherits from 'Ogre::ParamCommand'.

Ogre::RotationAffector
::CmdRotationSpeedRangeStart
